DETAILED ACTION

1. The indicated allowable subject matter of claims 21,22,24, and 29 has been withdrawn in view of the newly discovered prior art to Katzke(3,747,282).

Claim Rejections - 35 USC § 102

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 21 and 29 are rejected under 35 U.S.C. 102(b) as being anticipated by Katzke.

- Katzke discloses a carrier head for chemical mechanical polishing comprising a base; a mounting assembly attached to the base; and a retaining ring(27) secured to the base, at least a portion of the retainer including polytetrafluoroethylene. See figure 3, and column 3, lines 60-end.

Claim Rejections - 35 USC § 103

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

5. Claims 22 and 24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Katzke in view of Yamamoto(5,740,893).

- Katzke is explained above.
- Katzke does not disclose that a bottom portion of the retaining ring is made from carbon or carbon fibers.

Art Unit: 3724

- Yamamoto teaches that carbon and carbon fibers may be used for reinforcing a resin. See column lines 21-end.
- Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to have modified the retaining ring(27) of Katzke including carbon and/or carbon fibers therein in order to provide durability as taught by Yamamoto.

Allowable Subject Matter

6. Claims 1,2,4-11, and 13-20 are allowed.
